

## CV Johnny Gylling

Born in Nättraby, Sweden 1956

*I am a person who likes to help others and is happy to contribute to a better world with the little I can. So when I finally set out to start my own business, the topic was a given: Help companies with CSR and sustainability so that they can become "Good Enterprises".*

*I have been married to Lena since 1976 and we have a son and two grandchildren together. Music also fills a large part of my life when I sing and play double bass in two different bands.*

*I imagine that I am younger than what is written on the driver's license, so I am still curious, active and want to learn something new. I hope for good health and to be able to continue my work as a consultant for a while longer.*

### Career

- 2014 – Founder and consultant at GE99 - business advisor on CSR and sustainability. Project experiences: Evaluated Sveriges Åkeriföretags "Fair Transport" in the form of sustainability report.
